

Grading Rubric for Content Portion of Exit Survey

High Pass – Student answered at least 75% of objective questions correctly, and short answer questions were answered thoughtfully, thoroughly and in keeping with current practice in the industry. The case study gave supporting examples for the assertions made that are in keeping with current practice within the industry.

Pass – Student answered at least 60% of objective questions correctly, and short answer questions were answered adequately and accurately. The case study recommendations were in keeping with current practice within the industry and were reasonable.

Low Pass – Student answered at least 50% of the objective questions correctly; short answer and case study responses did not reflect any significant misconceptions about industry practices.

Fail – Student answered fewer than 50% of the objective questions correctly; short answer and case study responses were missing, inadequate, or reflected significant errors regarding industry practices.
