10/00 Review of *Nature's Fading Chorus* on H-Net

Public History

10/02 Brochure Published by the University of Missouri on the history of Stephens Hall for that building's rededication

Current Projects

I am a member of a group of faculty at Sam Houston State University working on a digital history of the Huntsville/East Texas Region. This project has won two grants so far, one external and one internal. The site provides both narratives on multiple topics from the region and primary sources. My current project is an environmental history of the Huntsville and Piney Woods region with a close analysis of land-use practices and ecological change over the course of the nineteenth century.

Conferences

- 4/11 "Climate Change and Pacific Northwest Salmon: Adaptive Strategies and Narrative Approaches to Salmon Preservation and Restoration," presented at the American Society of Environmental History Conference in April, 2011
- 10/09 "Torn Wires and Competing Telegrams: Information Technology in the Johnson County Range War," presented at the Western Historical Association Conference in Denver, Colorado
- 9/09 "Climate Change and Pacific Northwest Salmon: Adaptive Strategies and Narrative Approaches to Salmon Preservation and Restoration," presented at the First World Congress of Environmental History in Copenhagen, Denmark
- 8/08 "Just Another Land and Labor Conflict: The Events Leading up to the Johnson County Range War," presented at the AHAPCB Conference in Pasadena, California
