Notes

- Graduate degree program classification is based on fewer than 50 degrees.
- Undergraduate program classification: the percentage of majors is within 5 percentage points of a category border (arts & sciences direction).
- Undergraduate profile classification: due to a high proportion of transfer entrants, test score data (if present) may not be representative.
- Size and setting classification: the percentage of students in residence is within 5 points of the category above.

 All-inclusive classifications are time-specific snapshots of institutional attributes and behavior based on data from 2008 to 2010. Institutions might be classified differently using a different timeframe.

News & Announcements

INTERIM SITE – Please note that this site is being made available while in the process of transitioning to its new home at the IU Center for Postsecondary Research. For questions, please contact vborden@iu.edu.
