Accomplishments for the Department of Curriculum and Instruction 2008---Present

In August 2008, I became the interim department chair of Curriculum and Instruction. At that time, the department was severely divided and morale was extremely low. The perception of Department of Curriculum and Instruction within the College as well as the University was tarnished.

One of my top priorities at that time was to improve faculty morale, reunite the department as to relationships, goals, and mission, and improve the College and University perception. I lead our team's effort to develop a new department mission statement, new department goals, and have worked diligently the last five years to facilitate the growth and maturity of these aspects. Currently, the department's morale is high and faculty are confident and highly productive in their roles. Additionally, C&I is now perceived as a leader in the College as well as the University.

During the last six years, the Department of Curriculum and Instruction has implemented and/or engaged in the following initiatives and programs. This is a list of examples and is not comprehensive of all of the Departments' accolades.

- Secured Market and Merit raises for the majority of C&I Faculty. The Department had not received Market adjustments in at least five years before I became Department Chair.
