

New To You
Especially from Us – Especially for Faculty!

The latest addition to Library Services for Faculty members, *New To You* provides a way to support Faculty research and add recently published books to the Library's collection at the same time. Specifically, this program is designed for requesting:

- Books published within the most recent twelve months, not already in the Library's collection;
- Published in English;
- Up to \$100.00 in price.

To use the service simply request the book through your ILLiad account, as if you were requesting a book through Interlibrary Loan. We'll take it from there and notify you when the book is available. (Special shipping arrangements will expedite delivery, so the process will be faster than regular acquisition).

New To You joins Faculty → Direct, which provides office or desktop delivery of articles and books that are part of the Library's collection, as another service offered to SHSU Faculty members. Faculty → Direct requests also are made using your ILLiad account.

For questions about ILLiad, setting up an account, or about *New To You* and Faculty → Direct, contact:
