

COURSE SYLLABUS

MTH 163.08 [7788]
Plane Trigonometry
credit: 3 semester hours
fall 2007

Room: LDB 218
Time: TT 2:00 – 3:20

Instructor: J. Kirk
Office: LDB 433
Phone: (936) 294-1592
Email: jkirk@shsu.edu

Office hours: M 10:00 – 11:00 or 1:00 – 2:00
Tu 10:00 – 11:00 or 1:00 – 2:00
W 10:00 – 11:00 or 1:00 – 2:00
Th 10:00 – 11:00 or 1:00 – 2:00
F 10:00 – 11:00
or by appointment

Course Description and Prerequisites:

(see *Sam Houston State University Undergraduate Catalogue*, MATHEMATICS COURSE DESCRIPTIONS)

Topics include coordinate systems, circular functions, solutions of triangles, identities, trigonometric equations, and inverse functions. Prerequisites: Two years of high school algebra and one year of high school geometry. Credit 3.

The methods of instruction are reading, study, exercises, lecture, discussion, and student demonstrations.

Course objectives:

- Understand trigonometric concepts and methods
- Proficiency in methods of computation
- Familiarity with selected applications

Text: *Trigonometry* (5th ed.)
By McKeague and Turner
Thomson Brooks/Cole, 2004
Selections from chapters 1-8 and appendices

Calculator: -- A graphing calculator, such as a TI-83, or equivalent

Attendance Policy

(see *Sam Houston State University Undergraduate Catalogue*, SCHOLASTIC REQUIREMENTS)

Late work is accepted for appropriate cause. Advise the instructor early, or as soon as possible, when work must be completed late. You are expected to be present for every examination. An excessive number of absences (more than 4 hours) may adversely affect your grade. The quality of your class participation is important and can impact your grade.

Assignments

Assignments may be given orally, by reference to a textbook, or with class handouts. These assignments may consist of reading, exercises, or reports (oral or written), concerning mathematical concepts and methods. Submissions should use an accepted format and style. The course grade is not assigned without consideration of the quality with which assignments are completed.

Exams, grading, and posting of grades

There will be three or four exams (including the final exam). The weighted mean score, is used to determine the course grade. With rare exception, exams are weighted equally (deviations from this practice will be announced). A weighted mean of 90-100 is A, 80-89 is, at least, B, 70-79 is, at least, C, etc. No exam may be omitted. The date of an exam will be announced at least a week before that exam. Accepted statistical practices will be used in determining the course grade. Semester grades are posted by the registrar. (See also "Attendance Policy" and "Assignments" above.)
