Course Development

Developed and wrote curriculum for two new Texas Education Agency courses and were approved as Innovative Technology courses for three-year experimental programs.

1. ***Networking Technologies I and II*** course and curriculum. I taught these courses for all three years. These courses are now taught as *Networking*.
2. Co-developed ***Telecommunications: The Internet and the World Wide Web***, now called ***Web Mastering***.

Funded External Grants

Novell, Corp. Received approximately \$3,000 in textbooks and networking software to implement the first Novell Academic Partner Networking program in a high school in Texas. 1997.

Microsoft. Received approximately \$3000 in textbooks and networking software to implement one of the first Microsoft Authorized Academic Training Program (AATP) in a high school in Texas. 1998.

Intel® Teach to the Future Program. Received \$7000 grant for equipment for my classroom as a selected Intel® Teach to the Future Master teacher. Program development grant was funded by Intel Corp. and the Bill and Melinda Gates Foundation, 2002.
