

STA/MTH 169 – Elementary Statistics
Spring 2008 – Course Syllabus

SEC 04 (THTU 11:00-12:20) LDB 401

Instructor : Peiqi Zhai (Peggy)

Office : LDB 404 **Phone** : 294-3518 **E Mail** : pxz002@shsu.edu

Office Hours : MWF 10:00 – 11:00 A.M. or by appointment

Text : Bluman, A. G (2007). Elementary Statistics: A brief version, McGraw Hill, 4th edition; ISBN: 0073486809

TI-83 Plus or TI-84 Plus calculator is recommended.

Material Covered: Methods of analyzing data; statistical concepts and models; estimation; tests of significance. Chapter 1 – Chapter 10.

Attendance : Class attendance is **extremely important** to succeed in this course. Roll will be taken at class meetings. **Two extra points** will be added to the overall score for the students having **NO more than 2** absences for the semester. Late arrival(15 mins), leaving class early and forgetting to sign the roll sheet without acceptable reason are counted as absences.

Learning Outcomes: The learning outcomes for this course shall include but not be limited to the following:

- (a) An appreciation of the role of statistics in everyday decision making.
- (b) An understanding of the need to be wary of statistical claims.
- (c) An understanding of the meanings of various measures, including the sample mean, median, mode, standard deviation, and quartiles.
- (d) Gain a familiarity with graphical representations of data and learn how to recognize misleading graphs.
- (e) Develop proficiency in solving probability problems.
- (f) Gain an understanding and be able to apply the Central Limit Theorem.
- (g) Learn how to compute and interpret confidence intervals.
- (h) Learn how to perform and interpret hypothesis tests.

Assessment: Continuous assessment of the progress of the course will occur via ongoing communication between the instructor and students. To this end all students are encouraged to ask questions during class and seek the instructor's help out of class when needed. Please read the sections about HW, quizzes and exams for further details.

Quizzes & Homework : I will assign you homework every week we meet and the homework will due the next week. You might have some quizzes based on homework. Pop-up quizzes will also be given as well.

Missed Work : There will **not** be any **make-up examinations**. Every missed examination will result in zero unless you have a valid (written) excuse from a **proper authority (Example: a letter from Dean of Students)**. In the event your excuse is **acceptable**, the score you earn on the final exam will replace missed exam score. You can take **one make-up exam** for the semester.

Grading Policy:

3 in class exams	50 points
Quizzes & Homework	30 points
The comprehensive final exam	20 points

Grading Scale :

90 and above A, 80 - 89 B, 70 - 79 C, 60 - 69 D, 0 – 59 F

Important Dates :

Last day for dropping Fall Session courses without grade of F.	- Feb.1, 2008
Midterm exam1	- Feb.19, 2008 (TU)
Midterm exam2	- Mar.25, 2008 (TU)
Midterm exam3	- Apr.22, 2008 (TU)
Final examination	- May,2008

Civility in the Classroom: Students are expected to assist in maintaining a classroom environment which is conducive to learning. **Please turn off cell phones and beepers. No newspapers.**

Academic Dishonesty : All students are expected to engage in all academic pursuits in a manner that is above reproach. Students are expected to maintain complete honesty and integrity in the academic experiences both in and out of the classroom. Any student found guilty of dishonesty in any phase of academic work will be subject to disciplinary action. The University and its official representatives may initiate disciplinary proceedings against a student accused of any form of academic dishonesty including, but not limited to, cheating on an examination or other academic work which is to be submitted, plagiarism, collusion and the abuse of resource materials.

Students with Disabilities: It is the policy of Sam Houston State University that no otherwise qualified disabled individual shall, solely by reason of his/her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any academic or Student Life program or activity. Disabled students may request assistance with academically related problems stemming from individual disabilities by contacting the Director of the Counseling Center in the Lee Drain Annex or by calling (936) 294-1720.

Religious Holidays: University policy states that a student who is absent from class for the observance of a religious holy day must be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence. Students must be excused to travel for observance of a religious holy day. A student who wishes to be excused for a religious holy day must present the instructor with a written statement describing concerning the holy day(s) and the travel involved. The instructor should provide the student with a written description of the deadline for the completion of missed exams or assignments.

**COURSE
SEQUENCE**

WEEK 1: Chapter 1: Introduction -- The Nature and Probability of Statistics

WEEK 2: Chapter 2: Numerically Summarizing Data – Bar Charts, Pie Charts, Histograms, Pareto Charts, and Other Descriptive Charts

WEEK 3: Chapter 3: Numerically Summarizing Data – Measures of Central Tendency, Variation, Position and Associated Topics

WEEK 4: Chapter 3: Continued – Numerically Summarizing Data

WEEK 5: Review and Exam 1

WEEK 6: Chapter 4: Probability and Counting Rules

WEEK 7: Chapter 4: Probability and Counting Rules (Continued)

WEEK 8: Chapter 5: Discrete Probability Distributions (Continued)

WEEK 9: Spring Break Week

WEEK 10: Chapter 6: The Normal Distribution

WEEK 11: Chapter 6: The Normal Distribution (Continued)

Review and Exam 2

WEEK 12: Chapter 7: Confidence Intervals and Sample Size

WEEK 13: Chapter 8: Hypothesis Testing – Inferences in the Single Population Case

WEEK 14: Chapter 8: Hypothesis Testing (Continued)

WEEK 15: Chapter 9: Inferences in the Two Population Case

WEEK 16: Chapter 9: Inference in the Two Population Case (Continued)

WEEK 17: Review and Final Exam

HAVE A FANTASTIC SEMESTER!!
