#### **Peer-Review Publications and Artistic Performances/Exhibitions**

N/A

#### **Research Monographs and Technical Reports**

##### **My research and Technical Reports include Grant writing:**

As an Education Specialist at the Education Service Center, Region VI, I have worked very diligently in applying for grants from the Texas Workforce Commission, The United States Department of Education, and The Texas Department of Transportation. As a grant writer, one of my responsibilities is to seek additional funding to ensure that our program successfully serves and meets the needs of our school districts. I have worked very diligently applying for a grant proposal titled Self-Sufficient Worker Achievement Training (SWAT) in the amount of \$529,000.00. I have a full understanding of how to seek, apply, write, interpret research, submit, and meet all requirements of a grant proposal. I have also established working relationships with several business partners and training providers such as: Sam Houston State office of continuing education and I understand the operation of The Texas Workforce Commission.

I have also been an integral part of writing a Corrections grant from the U.S. Department of Education. I have accomplished the task of applying, writing, interpreting researching, submitting, and meeting all the requirements of a grant.

I have worked very diligently applying for two grant proposals from the Texas Department of Transportation for over \$200,000.00. I received both of these grants for our organization and we have been implementing the two proposals for three years now. I am in the process of writing four additional grants from TxDOT for fiscal year 2009.

#### **Funded External Grants**

##### **Grants Received:**

- Texas Department of Transportation – Driver Awareness Program for Adults
- Texas Department of Transportation – Development, Implementation, and Evaluation of Teen Driver Education Workshops.
