

Faculty Senate Survey Results Library Results Over Time

The results of the annual Faculty Senate Survey indicate that overall the Sam Houston State University is satisfied with the Library's services. The Faculty find that the Library can support their research, the mean in 2007 was 4.17. While the Faculty's view of Library Services supporting the curriculum is not significantly lower than the support for research, the results are lower, in 2007 the mean was 3.90. The Library continues to talk with Departments and individual faculty member about these results.
