[Mission/Goals](#)

Mission

The mission of TRIES is to provide credible, unbiased information for economic, social and scientific solutions to environmental problems. The multi-disciplinary nature of environmental issues addressed by TRIES provides an opportunity for collaborative efforts between public and private entities.

Goals

- To be a recognized leader in the field of environmental problem-solving
- To develop and enhance comprehensive, synergistic, public/private partnerships to address environmental issues
- To gather, maintain, organize, and disseminate information on environmental issues
- To promote environmental issues on all levels
