Mission

The Psychological Services Center (PSC) has a dual mission to provide services to the community as well as clinical training for doctoral level students. The PSC offers services on a sliding fee scale and strives to provide evaluations and treatment for people who are under-served in the community.

The PSC offers services to local organizations, including the Department of Assistive and Rehabilitative Services, Montgomery County Youth Services, Montgomery County Department of Community Supervision and Corrections, Walker County Juvenile Services, and Walker County Community Supervision and Corrections Department. The PSC also provides services to lawyers and courts.

Through the PSC, clinical psychology doctoral students provide treatment services to children and adults, couples and families. In addition, students complete psychological evaluations and diagnostic interviews. As a training facility, the PSC allows community members the opportunity to receive services they may not have had access to otherwise.
