Computer Services Staff

The Computer Services Department has been very fortunate to have hundreds of talented student assistants thoughout our history. We are grateful for their contributions here and proud of their current careers.

Administrative
| staff profiles |

The purpose of the Administrative team is to supervise the planning, implementation and operation of the University's information systems, including the computing and telecommunications systems. The Admin team provides support (payroll, personnel, budgeting, purchasing, reporting) to the other departmental teams:Systems and Telecommunications, Administrative Applications, and Client Support.

Mark Adams
Associate Vice President for Information Resources
marka@shsu.edu
936-294-1158

Deborah Mc Kerall
Senior Administrative Coordinator
dam004@shsu.edu
936-294-3548

Angela Wright
Information Resources Project Coordinator
amw002@shsu.edu
936-294-3546

Administrative Applications Department
| staff profiles |

The purpose of the Administrative Applications team is to provide complex skilled analysis of business and management problems in terms of systems requirements. The team maintains and develops the programs that the faculty and staff access via the administrative menu system. Additionally, the team organizes and develops the programs that the students access via SamInfo. The majority of the programs are written in Cobol, and the operating system is Open VMS.

Jacob Chandler
Director Computer Services-Administrative Applications

Jessica Hickman

Systems Department
| staff profiles |

This team is responsible for the daily operation of the University computer network servers and client environment, as well as the installation and maintenance of system software on these systems. The systems include the Open VMS system (NELL), UNIX (UNX1), Windows, Windows NT (STORM) and the programming and maintenance for the Meridian phone system. You can find added information on the different servers that make up the SHSU network. Additional responsibilities are the management and operation of the campus data and telecommunication network, including supervision of the installation and maintenance of network computer and telecommunication equipment.

Grady Mangum
